

City of Loma Linda Official Report

Floyd Petersen, Mayor
Stan Brauer, Mayor pro tempore
Robert Christman, Councilmember
Robert Ziprick, Councilmember
Charles Umeda, Councilmember

COUNCIL AGENDA: February 14, 2006

TO: City Council

VIA: Dennis R. Halloway, City Manager

FROM: Michael Norris, Fire Chief

SUBJECT: Expenditures for 2006 Fire Engine and Fire Truck

RECOMMENDATION

That the City Council authorize appropriation of \$30,876.60 for mitigation of costs incurred for design specifications for the 2006 Smeal Fire Engine and Smeal Truck Company.

BACKGROUND

Detailed specifications pertaining to the new equipment were designed into the vehicles to assure they are customized for operational needs presented to the fire department by the physical layout of the city itself. Some costs were also incurred due to changes in specifications forced by new National Fire Protection Association standards that apply to 2006 and newer fire apparatus.

ANALYSIS

These modifications will allow for continuation of all risk response by these vehicles through the storage of proper equipment, easy access to the equipment, and protection of the crewmembers.

ENVIRONMENTAL

N/A

FINANCIAL IMPACT

The above modifications will incur an expenditure of \$30,876.60:

- Engine differential = \$5,327.45
- Truck differential = \$25,549.15
